RELIABILITY *for real life*™

## THE MANY STRENGTHS OF AURALAST WOOD

### Prevents wood decay

JELD-WEN windows and patio doors with AuraLast wood protect against wood decay. So with AuraLast wood your windows maintain their structural integrity even in the harshest conditions.

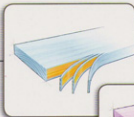

### Prevents water absorption

AuraLast wood offers superior water repellency, preventing wood windows from swelling. This means the window or patio door won't stick, and it will continue to open and close easily regardless of environmental conditions.

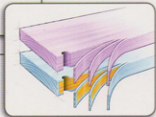

**AURALAST WOOD PROVIDES VIRTUALLY 100 PERCENT PROTECTION, WHICH GOES FROM THE SURFACE ALL THE WAY TO THE CORE.**

### Prevents termite infestation

Another benefit of AuraLast wood is that it prevents termite infestation. While harmful termites will eat through unprotected wood, JELD-WEN windows and patio doors with AuraLast wood will keep them at bay.

*Traditional dip or envelope treatments protect only the surface.*

*Unlike dip-treated wood, nail and screw holes will not compromise the integrity of AuraLast wood.*
