

GARDEN VUE WINDOW

LET THE LIGHT IN...KEEP THE WEATHER OUT!

Our elegant Garden Vue window will add beauty as well as function to any room in your home... bathrooms, bedrooms and dining rooms included.

The Garden Vue window is specially designed to combine the aesthetic appeal of clean lines with a structural design that assures lasting durability. The glass area in a Garden Vue window is maximized because the frame and casements are aligned inside, for a "straight through" view to the outside.

The Garden Vue features locks and operators that are easy to reach, even when the window is installed behind a

kitchen counter. This design permits the end casements to be opened and closed easily for ventilation.

Every Garden Vue window is custom made for a perfect fit in your home and comes with a fully transferable lifetime warranty. The warranty covers vinyl frames, sashes, the insulated glass seal and all moving parts for defects in materials and workmanship. For peace of mind install the best, a Garden Vue window.

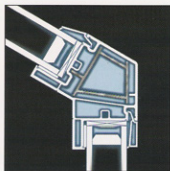

The Best Garden Window Money Can Buy!

Dual compression seals and locking mechanisms on the Garden Vue casements provide air and water tightness while the 30° roof angle ensures excellent water runoff. Weep channels at the window's top and bottom help keep the interior dry.

The Garden Vue operating casements open wide to provide excellent ventilation while full trapezoidal screens cover the openings. Simply put...this is a quality window packed with features.

- Made with SunShield® vinyl. This highest quality PVC vinyl stands up to the weather, wherever you live, for a lifetime.
- The trapezoid casements are made with fusion-welded sash and frame for superior strength.
- You choose from birch (standard) or oak (optional) head, seat and jamb.
- Optional: Low-E glass; grid styles and patterns; frosted or tinted glass.

Garden Vue Windows Are Custom Made For A Perfect Fit.

Garden Vue frames are reinforced with metal for maximum strength.

Dual compression seals and locking mechanisms keep the operating vents sealed tight against the elements.

The adjustable glass shelf shown here is optional. Adjustable vinyl coated wire shelves as shown in the Garden Vue window at right are standard.

Vinyl Colors	White.
Beige.	Brown.

These before and after photos demonstrate how a Garden Vue window can dramatically change a typical window opening. This garden window was custom made for the second story bedroom of a 160 year old farm house. The customer now grows plants where they would never grow before.
