## What's the Best Value

Usually the best value is not always the lowest price, and typically a product with the lowest price winds up costing considerably more over a period of time.

According to estimates published in *Consumer Reports*® (Oct. 2000) a homeowner can have potential energy savings of 12% when replacing old windows with new insulated Low-E and argon filled windows. Compare the 10 year savings for an average residence with \$110 monthly heating & cooling costs.

Approximate Savings Over 10 Years	\$5,810.70	\$1,992.24
-----------------------------------	------------	------------

### Additional Savings with Sunrise \$3,818.46

While you may have to invest a little more up front for Sunrise Windows, they should actually cost you **less** to own than a typical window. Now, that is the best value!

## Sunrise Makes Sense

The Energy Star approval comes from the U.S. Department of Energy for outstanding savings on utility costs to the consumer.

Sunrise Windows are certified to the stringent standards of the National Fenestration Rating Council (NFRC). Other companies may claim their products are energy efficient, but Sunrise Windows have passed the toughest of all tests.

## We Guarantee It

Not only do we offer a written Energy Savings Guarantee, all Sunrise Windows include a Lifetime Non-Prorated Transferable Warranty. With Sunrise, there are no hidden costs down the road. We Guarantee It!

## 35% ENERGY SAVINGS GUARANTEE

Sunrise Windows Guarantees a 35% Savings on the energy necessary to heat and cool your home during the first year after installation, when you replace all of the windows and Patio Doors in your home with Sunrise Windows with Ultra U-Plus Glass

In the event that less than all of the windows are replaced, the 35% Energy Savings Guarantee will be prorated to the actual percentage of the windows replaced. For example: If 8 out of 10 windows are replaced (or 80% of the windows) the Energy Savings Guarantee will be prorated by 80%.

In the event you do not have at least 35% Savings on the energy necessary to heat and cool your home during the first year after installation, your Sunrise Window Dealer will refund the difference, up to a maximum refund of \$500.00.

To make a claim for a refund contact Sunrise Windows for an Energy Savings Guarantee Refund Application.
